Site visit by MHT Staff yes ☒ no Name: _____ Date: _____

Description of Property and Justification: *(Please attach map and photo)*

Building E4261 served as the Post Exchange Service Station when constructed in 1961. Measuring 59 by 27 feet, the building is constructed of concrete masonry units on top of a concrete foundation of concrete masonry units. Building orientation is to the west. The façade is composed of three service bays accessed through sectional overhead doors of 15 panels each and a glazed, commercial storefront. The upper six panels of the overhead doors are filled with clear glazing while the lower panels are either painted glass or bakelite. The storefront contains a metal framed, full-light door with the entire corner of the building encased in metal-framed, plate-glass windows. The left side elevation is pierced by a four-light door and eight-light, metal-framed windows with a pivoting, central sash. The left hand or northernmost garage bay appears to be an addition. The exterior walls are parged and a concrete-coped parapet wall encircles the flat roof. Associated with the building is a fuel island covered by a metal sheathed canopy. The building is currently vacant.

Building E4261 was evaluated against National Register guidelines to determine if it retained those qualities of significance and integrity to merit further consideration for eligibility to the National Register. This building bears no direct association with important themes at Aberdeen Proving Ground (Criterion A); research did not reveal any associations with individuals important Cold War history (Criterion B); and, the building does not possess the distinctive characteristics of a type, period or method of

onstruction (Criterion C). Additionally, Building E4261 is not 50 years old, and must satisfy Criteria Consideration G to merit further consideration for National Register eligibility. Building E4261 does not possess exceptional importance to meet the threshold requirements of Criteria Consideration G. Building E4261 served as a support structure, secondary to the primary mission of Edgewood Arsenal in the Cold War Era. This structure does not possess the qualities of significance or integrity for listing in the National Register of Historic Places.
